7. Bug_009

a) Description :

In the promotion field, when I select the different country and entered the wrong information of city, state and zip code. It accepts rather than showing “not matched city with your country”. Better to give drop down list for state, city and zip code corresponding with selected country.

b) Test-reproduce :

- i. Click promotion.
- ii. View location info
- iii. Select country as India
- iv. enter region as western province.
- v. enter city as Nugegoda.
- vi. enter zip code 32200.
- vii. check whether there is any warning message for entering the not matched details for selected country.

The screenshot shows a mobile application interface for 'Location Info'. The title bar is purple with a back arrow and the text 'Location Info'. Below the title bar, the text 'Please confirm your location information' is displayed. There are four input fields, each with a dropdown arrow: 'Country' (showing 'India'), 'State/Region' (showing 'Western Province'), 'City' (showing 'Nugegoda'), and 'ZIP Code' (showing '32200'). At the bottom, there are two buttons: 'Cancel' and 'Save'.

8. Bug_010

a) Description :

The same wrong information of location getting updated inside the user profile's location details.

b) Test-reproduce :

- i. Go to profile details page.
- ii. Check whether other details align with selected country details.

Infoa

32200

9. Bug_011

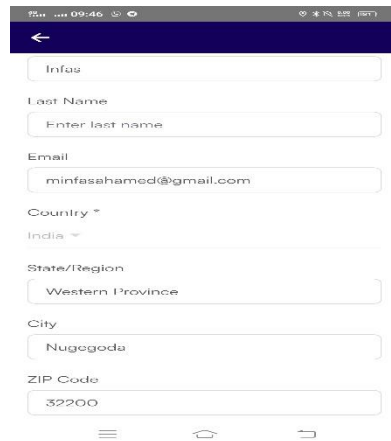

a) Description :

When editing the user profiles location field it accepts wrong data that is not related to each other Ex test data : country→ india, state→colombo/western province, zipcode : 32200

b) Test-reproduce.

- i. Go to profile
- ii. Click edit
- iii. select country as india
- iv. enter region as western province
- v. enter city Nugegoda
- vi. enter zip code 32200
- vii. click save

- viii. check if any warning for entering not matched details with selected country

A screenshot of a mobile application registration form. The form is displayed on a screen with a status bar at the top showing the time as 09:46. The form fields are as follows: First Name (Infas), Last Name (Enter last name), Email (minfasahamed@gmail.com), Country (India), State/Region (Western Province), City (Nugogoda), and ZIP Code (32200). The form is styled with a dark blue header and a light gray background.

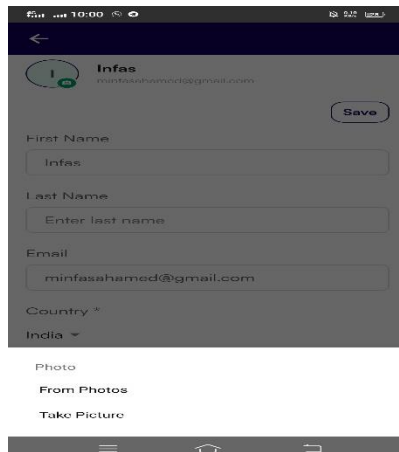

10.Bug_012

a) Description :

camera is accessed without asking any permission from users when updating profile photos.

b) Test – reproduce :

- Go to profile page
- Click edit
- Click profile camera icon
- Click take picture option
- Check if there any permission dialog box asking for permission to access camera

A screenshot of a mobile application profile page. The page shows a user profile with the name 'Infas' and email 'minfasahamed@gmail.com'. There is a 'Save' button in the top right corner. Below the profile information, there are input fields for First Name (Infas), Last Name (Enter last name), Email (minfasahamed@gmail.com), and Country (India). At the bottom, there is a 'Photo' section with two options: 'From Photos' and 'Take Picture'. The page is styled with a dark blue header and a light gray background.

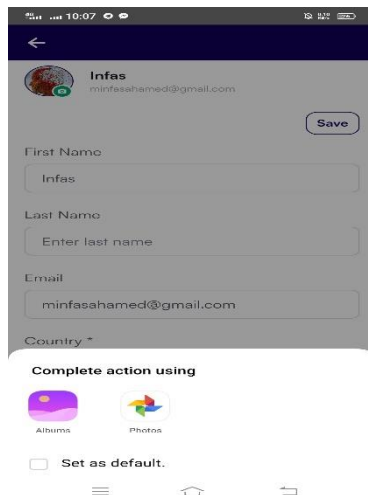

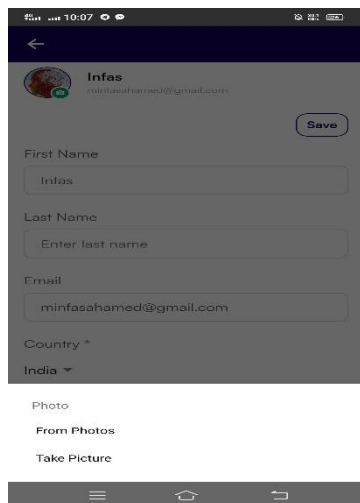

11.Bug_013

a) Description :

when uploading profile photo through photo gallery, it is not allowed to upload pic without editing.

b) Test – reproduce.

- i. Go to profile page
- ii. Click edit
- iii. Click camera icon
- iv. Select from photo option
- v. Give permission to access photo gallery

- v. Click add files.
- vi. Click camera.
- vii. Check whether any pop-up window asking to access the camera of device
- viii. Follow the same test for the sub list created under a parent Todo.

14.Bug_016

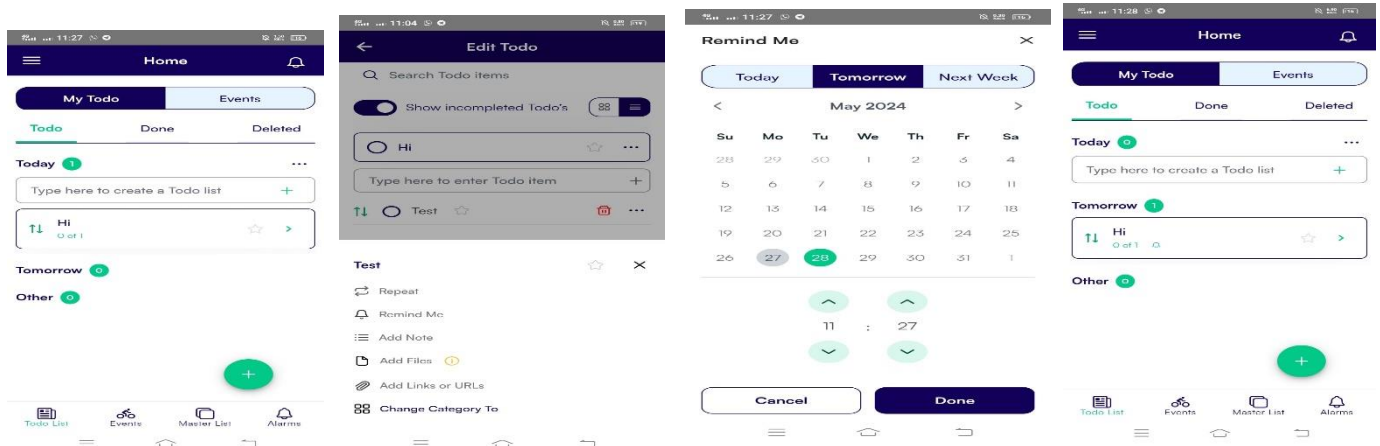

a) Description :

ToDo list created inside the “today” automatically being sent to tomorrow or other category when selecting future dates as reminders. Here the future dates should not be selected, but a warning message should appear to prevent selecting future dates because the task to be done today should not have future reminder date also it should not be moved to tomorrow or other category as future task. [a task that is set to be done today should not have future dates as its reminder]

b) Test-reproduce :

- i. Go to myToDo
- ii. Create a ToDo in today's category
- iii. Go to edit ToDo

- iv. Click ... button in the created ToDo
- v. click remind me
- vi. select a future date like tomorrow or day after tomorrow
- vii. check if there is warning message that no future dates to be set as reminder
- viii. go to my ToDo
- ix. check the created ToDo is in the todays category or it is automatically moved to tomorrow or other category

15.Bug_017

a) Description :

No cropping features and view features for profile photo

b) Test-reproduce

- i. Go to profile page
- ii. Tap the profile
- iii. Check if there is any option to view the uploaded photo
- iv. Check if there is any option to crop the picture in the applications itself

The screenshot shows a mobile application interface for a user profile. At the top, there is a status bar with the time 10:27 and battery level. Below it is a dark blue header with a back arrow. The profile section includes a circular profile picture, the name 'Infas', and the email 'minfasahamed@gmail.com'. A 'Save' button is located to the right of the profile information. The form fields are as follows:

- First Name: Input field containing 'Infas'.
- Last Name: Input field containing 'Enter last name'.
- Email: Input field containing 'minfasahamed@gmail.com'.
- Country *: Dropdown menu showing 'India'.
- State/Region: Input field containing 'Western Province'.
- City: Input field (empty).

At the bottom, there is a navigation bar with three icons: a hamburger menu, a home icon, and a back arrow.

16.Bug_018

a) Description :

No verification email is sent to old email address when changing the email address in the profile.

b) Test-reproduce :

- Go to profile
- Change the email address
- Check your old email
- Check if there is any warning or verification link being sent to your old email address

This screenshot is identical to the one above, showing the mobile application profile page for 'Infas'. It displays the same form fields: First Name (Infas), Last Name (Enter last name), Email (minfasahamed@gmail.com), Country (India), State/Region (Western Province), and City (empty). The 'Save' button and navigation bar are also present.

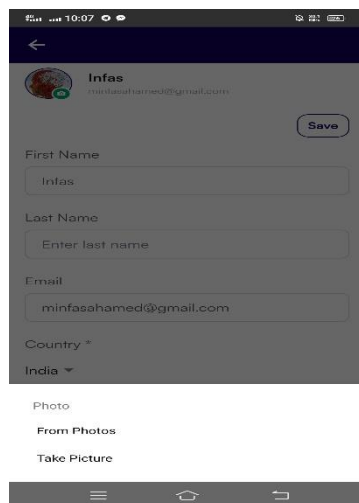

17.Bug_019

a) Description :

once permission for photo gallery is denied and again when selecting the "from photo" option to upload pictures, the photo gallery permission pop-up window is not shown and need to manually go to app permission and have to select for permission of photo gallery for app to access the photo gallery .

b) Test-reproduce :

- i. Got to profile
- ii. Click camera icon
- iii. Click from photo option
- iv. Click deny option for the gallery permission window
- v. Then again do the steps 1,2,3
- vi. Check if gallery permission window is again asking the permission to access photo gallery or not
- vii. Then go to app permission on phone setting
- viii. Give permission for photo
- ix. Then again do the steps 1,2,3
- x. Check now whether app is accessing photo gallery or not

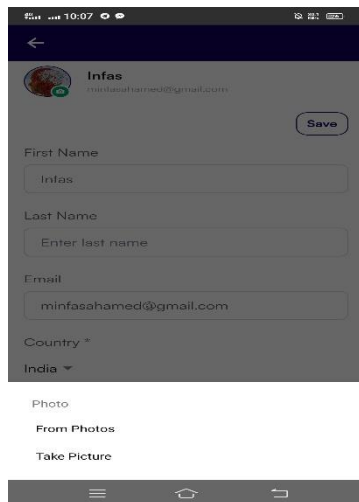

18.Bug_020

a) Description :

old profile photo is disappeared while editing and saving the profile photo without selecting any new photo during the time that photo gallery permission is being on “not allowed” option

b) Test-reproduce.

- i. Set a profile photo
- ii. Go to app permission of device and give deny option for gallery
- iii. Then go to application profile
- iv. Then click edit
- v. Then click save
- vi. Check if old photo is exist in the profile or disappeared

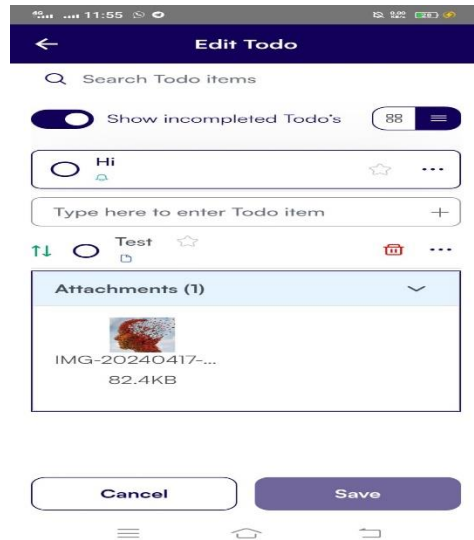

19.Bug_21

a) Description :

Attachment did not show which sub-todo list it is inserted in

b) Test – reproduce :

- i. Add the attachment to sub todo list
- ii. Click attachment drop down.
- iii. Check whether the attachment drop down box indicate the sub-todo list name in which the particular attachment was inserted .

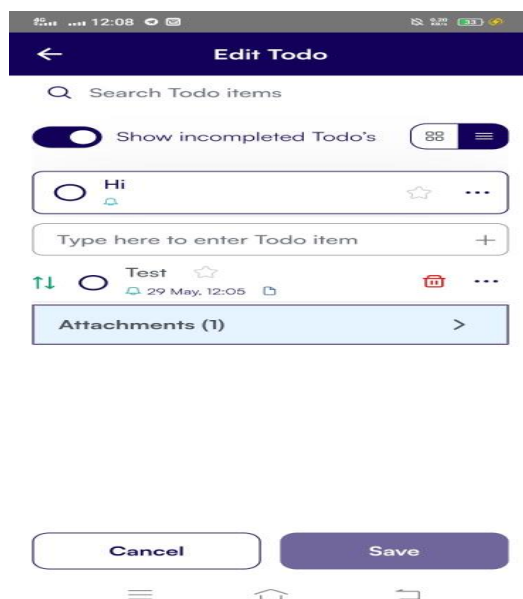

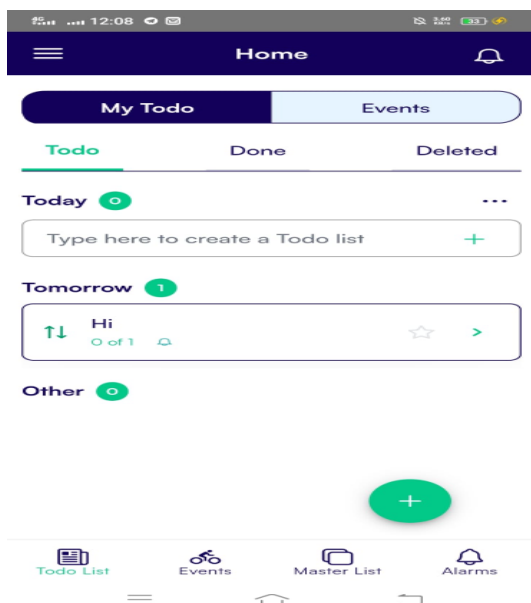

20.Bug_22

a) Description :

Reminder date is not shown in parent ToDo list but it is shown in sub-todo list

b) Test-reproduce :

- i. Go to my ToDo
- ii. Check there is reminder date showing in created todo
- iii. Go to edit todo
- iv. Check there is reminder on parent todo and sub-todo

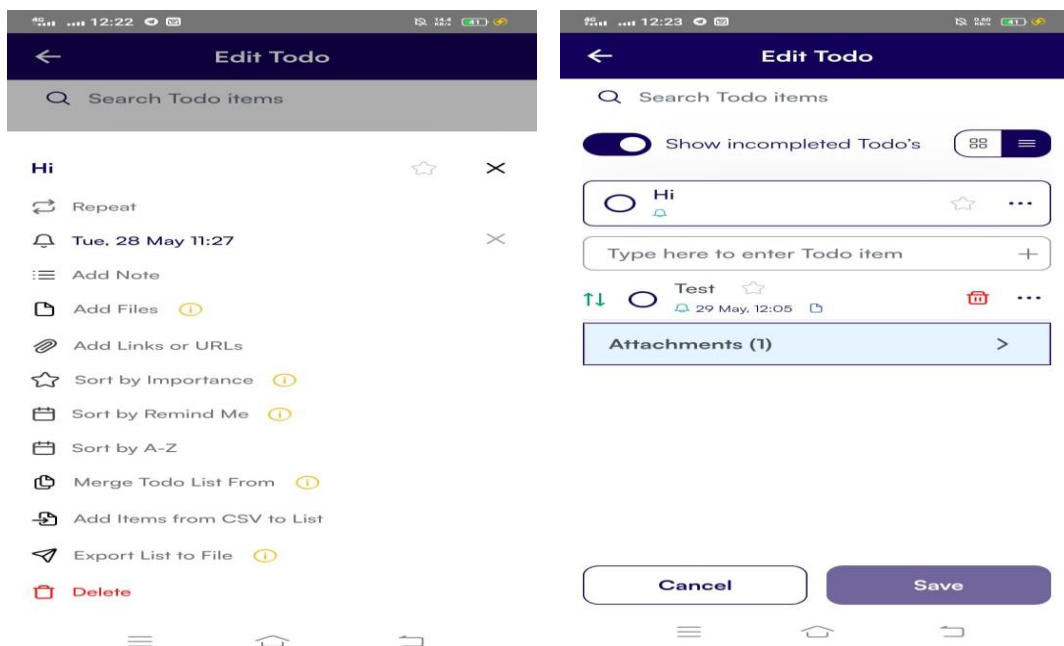

21.Bug_23

a) Description :

Sub todo list accept future dates as reminders while the parent Todo list is having current date as reminders. It contradicts whether the sub-task should be done along with the parent-task or not [sub task should not accept the future date as its reminders since it is categorized under parent task which have current reminder date , so sub task that is to be done with parent task also have reminders within current date and time, it should not go beyond current date and time]

b) Test-reproduce :

- i. Set parent todo with current date and time as reminder
- ii. Set sub todo with future date and time
- iii. Check if there is any warning message that sub todo should have reminder date and time that should not exceeds the reminder date and time of the parent todo

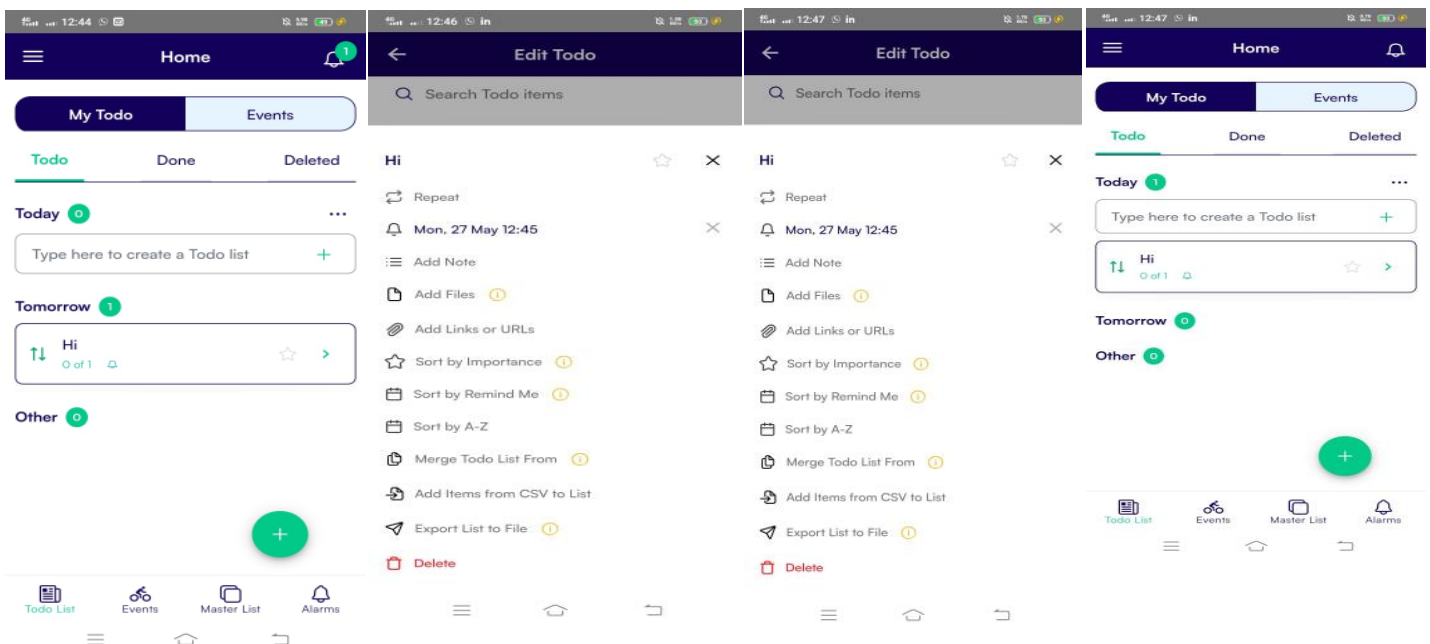

22.Bug_24

a) Description :

Tomorrow's Todo with today's reminder date and time is able to be dragged and dropped into today's Todo but the reminder of those Todo was already expired. for example : reminder of todo is today (27th) 12.45 clock but when we drag that Todo into today's Todo category it should not be allowed because the reminder time 12.45 clock is passed when we drag and drop it at 12.47 into the todays Todo category [the reminder of the todays task cannot be passed time but it should be a upcoming time], so here pop-up window box should be appeared to change the reminder time with upcoming time

b) Tests reproduce :

- Set a tomorrow's Todo with reminder of todays date and time
- Drag that tomorrow's Todo into today's todo category after it is current reminder time is passed
- Check if there is any warning message saying reminder of todays todo should be upcoming time.

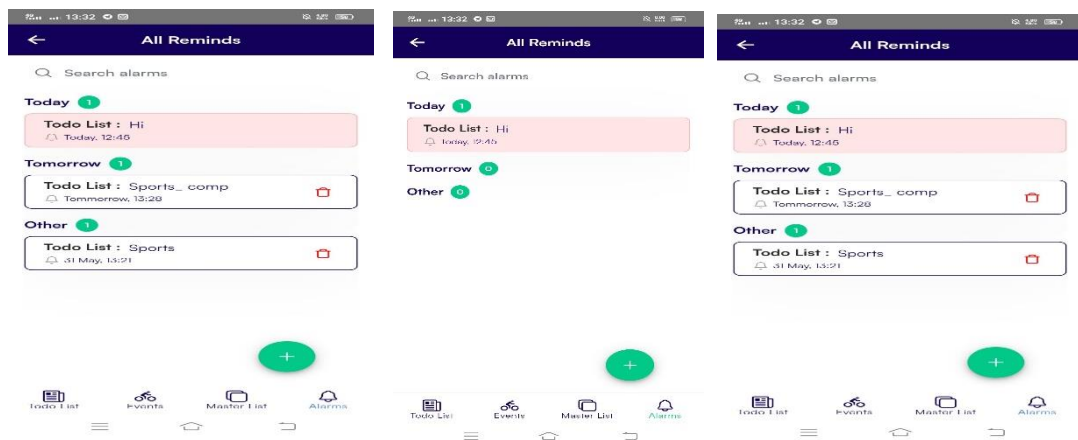

23.Bug_25

a) Description :

Even after delete some alarms of particular tasks, it again appears in the alarm section.

b) Test – reproduce :

- i. Delete the alarms of future tasks in the alarm section
- ii. Close alarm section
- iii. Again, open alarm section to check whether the future alarms of deleted tasks are still existing.

24.Bug_26

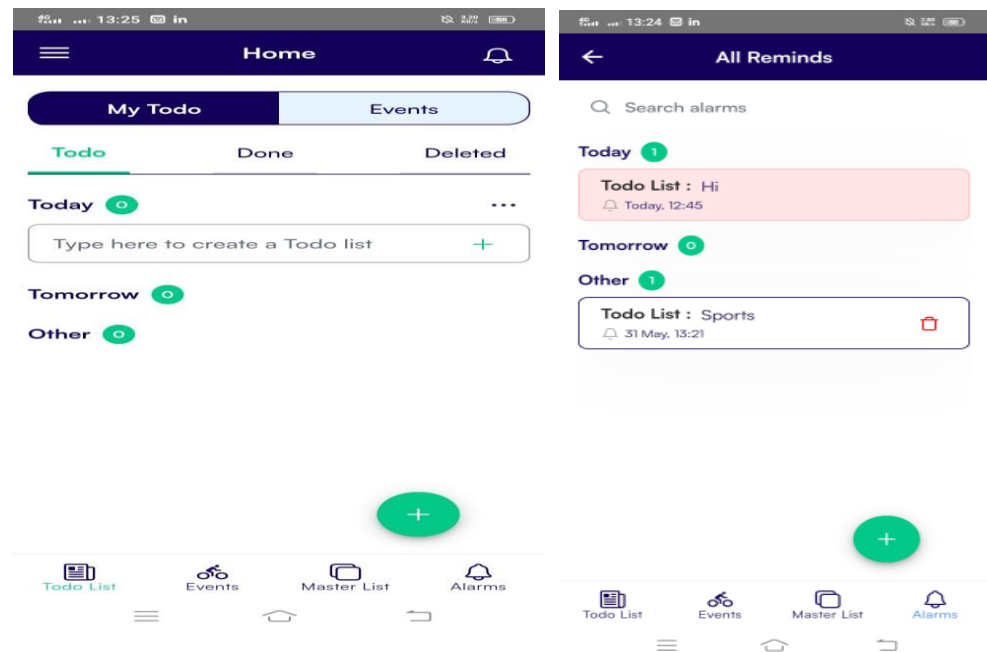

a) Description :

Even after the to-do task is deleted, the corresponding alarm that was set for that task is not automatically deleted.

b) Test – reproduce :

- i. Delete the todo task permanently.

- ii. Check the alarm section whether corresponding alarm that was set for the deleted todo task is still appearing .

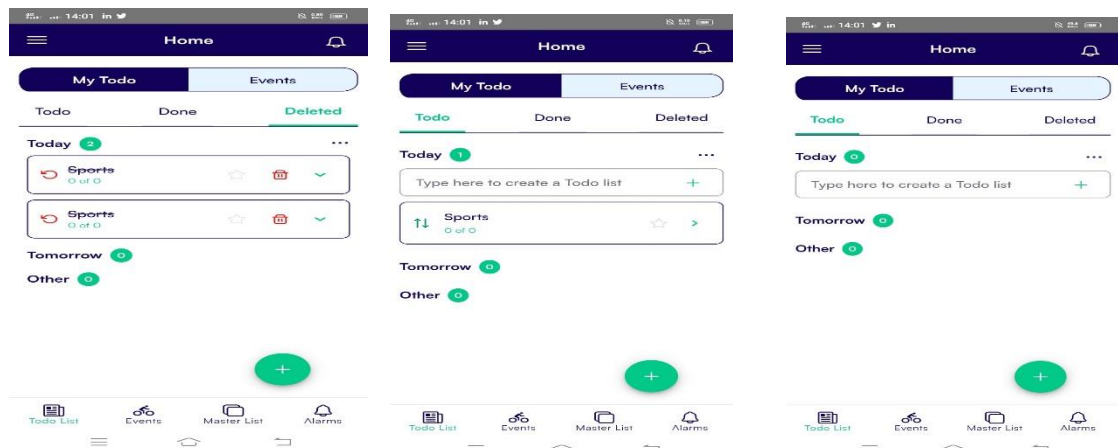

25.Bug_27

a) Description :

Even after deleting the task, it appear on ToDo section but it is only removed from ToDo after clearing RAM space from phone

b) Test reproduce :

- i. Delete a ToDo task in the ToDo section (not permanent delete)
- ii. Check the ToDo section if the task exist.
- iii. Then again, remove the RAM space of phone.
- iv. And check again the deleted ToDo task exists in ToDo section.

Strength

1. Notifications does not disappear, soon after we click notification bell icon and view it, but it keeps showing, until we tap the particular notification and view it, so that we can track the task without forgetting notified tasks.
2. Master List : we can add our repetitive tasks and we can reuse it whenever we need.
3. Alarm option : it gives beep sound once the reminder time is reached, so that we can easily remember the tasks to be done.
4. There is option for import To-Do lists from CSV files as well as export it to csv/excel file.
5. There is option for merge two or more To-Do list as one.
